

Why would you stop XM Radio from broadcasting traffic and weather reports? You gave Clear Channel a monopoly with almost 1000 stations around the country and you want to stop XM from giving traffic and weather reports for local markets? The theory just does not fly. I don't listen to regular radio any longer because of its' lack of variety and its' overwhelming conservative political bias. Leave my XM radio alone. I pay for it and I don't want the government involved! XM radio is no threat to Clear Channel-the government has seen to that! Leave XM alone!
